<b>KEY ISSUES:</b>	Emergency personal have indicated difficulty in finding residences in this area due to two parallel streets with the same name some ¼ mile apart. One set of these streets must be renamed (the easterly set) to eliminate this issue. Residents were notified on two separate occasions and the possibility that some addresses would have to be changed arose. The issue went back to the Street Naming Committee and the proposed set of street name changes alleviated this issue.
<b>MAJOR POINTS FOR:</b>	The proposed street names will eliminate confusion finding addresses in this area and forgo any existing

residences from having to have their addresses changed.

**MAJOR POINTS AGAINST:** None
